

The 35th Chairman's Cup

Hosted by:
Wattlespring Sport Shooting Club
Central Gauteng
17th/18th November 2018

The
Clay Target Shooting
Association of
South Africa

Attitude determines altitude :

A Warm Welcome from the new CTSASA President

As this is my first Chairman's Cup as the CTSASA President, I would like to thank the retiring President, Rob Thompson, for his commitment and passion for our sport.

A privilege and honour

I would also like to thank the CTSASA Executive Committee for entrusting me with the privilege and honour of being your President. It is a position that I don't take lightly and I will do my utmost to continue to improve our sport. The times in which we live are not easy but I believe with a positive attitude we will achieve good results. **Attitude determines altitude.**

The 35th Chairman's Cup

This is now our 35th Chairman's Cup. This event has always been a highly prestigious one and I know - through my own experience - how much hard work and organisation is required to ensure a successful competition. Machines, clays, catering, photographs, transport, flights, setting of the ranges and organising of umpires, medals, trophies, sponsors, commemorative brochure and the 'goody bag' are but a few items of an exhausting list of things to organise.

Thank you Sarah, for the hard work in organising and coordinating the event along with the tremendous work carried out by the hosting club and province.

The Clay Target Shooting Association of South Africa

Determination and Eagerness of Competitors

To all of our competitors, I personally know how much time is required to shoot and compete in order to qualify and participate in this incredible competition. Without you, this event will not be possible. Thank you for making your time available. It demonstrates a high level of determination and eagerness to represent your province.

Our Amazing Families

Let's not forget our amazing families who make up a significant part of our shooting fraternity. A special "thank you" to you all for supporting our shooters and for your understanding of how much time is required to qualify for a provincial team and to be able to compete at the Chairman's Cup.

Thank you also to all our generous sponsors. Your contribution to our sport is greatly appreciated because not only does it defray many of the costs, it also adds a highly professional image to the Chairman's Cup.

South Africans welcome our Zimbabwean Friends again!

A very special welcome to the Zimbabwean team - we are extremely delighted that you are once again competing with us and we wish you

a superb Chairman's Cup. We are honoured to include you in our inter-provincial competition.

Thank you to our hosting club and hosting province : Wattlespring Sport Shooting Club and Central Gauteng. I have no doubt that the organization will be of the best and I thank you for all your hard work.

Thank you to all our umpires and all those who work hard behind the scenes to create this truly magnificent competition.

To all participants : I wish you good shooting! Please enjoy the shoot, have a safe trip back home and may the best province win!

One final - and important - tip

If I can just give one final tip: remember to shoot one clay at a time.

Yours in shooting

Orazio Cremona
CTSASA President

A Heartfelt Welcome to all Participants and Supporters

On behalf of Wattlespring Sport Shooting Club, I would sincerely like to welcome you to this prestigious event, it is an absolute honour for us to host you over the next couple of days. Our only wish is that you will thoroughly enjoy this experience, break many clays and go home with fond memories.

World Class Shooting Facilities

A substantial investment has been made and is still being made into improving the facilities to the benefit of our members and clay target sport enthusiasts. WSSC can now proudly stand amongst some of the top clay target shooting facilities not just in South Africa, Africa but the world.

I would like to take this opportunity of thanking Rob Thompson and the Gauteng Central Committee as well as Sarah from CTSASA for their assistance leading up to this event, and the trust they have placed in WSSC to successfully host this wonderful event, we hope we do you all proud.

Hard Work and Dedication

An event like this takes a lot of planning, hard work and utmost dedication, and I want to thank the WSSC management and team for doing a sterling job, I am proud of you all. A special thank you goes out to Wesley Olwage, Sam Tshishonga, Eddie Macheke, Tim Swanton and Wayne Brown for all your

assistance leading up to this event. In advance I would also like to thank all the range officers, trappers, umpires, administration as well as the food and beverage staff who will be taking care of all your and your guests needs.

Thank you to our Sponsors

It goes without saying that an event like this relies heavily on sponsor support and I would like to send out a very big thank you to our main sponsor Safari & Outdoor as well as the following sponsors in alphabetical order namely Al Thandiwe Safari's, Loutzavia Air Charters, RAM Accessories, RC Ammo, Republic Arms and Spraymate who all had no hesitation in supporting this event - without them such an event would not be possible – thank you!!!

In closing I would like to wish you all the best in the competition, and most of all that you have a most enjoyable experience. I sincerely hope that we will not just meet but exceed your expectations. Until we meet again – ENJOY and have FUN!

COMPETITION REGULATIONS

1. Shooting will start promptly at the specified time. The first squad must be on the ranges and **ready to shoot** 15 minutes before the allotted time. Succeeding squads to be on the range 10 minutes before preceding squads have completed their round. **Any shooter absent when his/her squad is due to shoot will forfeit the complete round of targets.** An appeal to the appropriate jury may be made to consider the reason for the absence. An appeal fee of R250 must be paid with the appeal and the appeal must be in writing.

2. **Scoring :**

Trench & Skeet : two shooters from the previous squad to score for the next. Visible scoreboard on Trench & Skeet to be used.

Trap : one shooter from previous squad to score for the next.

Sporting : The umpire may score the round or may nominate a person from within the squad to score.

After you have completed your round and it is your turn to score, you are not permitted to leave the range. A penalty loss of one target will apply if you leave the range for any reason before you have completed your scoring duty or if you fail to score when it is your turn to do so.

All shooters must sign for their scores before leaving the range.

All shooters in all disciplines must check their score before leaving the range and at appropriate times during the round. Any dispute regarding scores cannot be reported to the jury unless a protest is made according to the discipline rules and before leaving the range.

3. Umpires will be provided where possible on all ranges. **Competitors will be required to score** and will score in rotation, i.e. the first 2 shooters on a squad will score first, followed by shooters 3 and 4, followed by shooters 5 and 6 or 5 and 1 where applicable. The exception is the Sporting discipline where the umpire may nominate his scorers from within the squad. Scorers for the first squad of the day will be taken from the last squads to shoot, e.g. squads 3 and 4 in Skeet, Squad 5 in ATA. **Refusing to score is not permitted.** Any shooter refusing to score will be penalized with the loss of 3 targets per refusal.
4. The first Sporting Squads should also report to the ranges 15 minutes before the allotted time. Sporting shooters to proceed immediately to the next range as per the shooting schedule.
5. The 10 second 'ready' rule in FITASC Universal Trench and the 20 second rule in FITASC Sporting will be strictly applied.

COMPETITION REGULATIONS :

Continued from page 8

6. **Applicable rules:** CTSASA Bye-Laws, ATA, FITASC, NSSA Skeet. At all times, where there is a CTSASA over-riding bye-law, this will take precedence over the individual discipline rules.
7. **Shooters may not change squads and squads may not alter the squad shooting sequence. Changes can only be made by the Shoot Organiser (Sarah Kalell).**
8. All score pads must be signed by each individual in the squad, the scorers and the umpire. Only justifiable queries to be referred to the Jury via the Shoot Organiser (Sarah Kalell). Pads to be returned to the office by the scorer at the end of the round.
9. Equipment – traps, scramblers etc. must not be tampered with. In the event of a breakdown contact the shoot convenor.
10. **Reloaded/Self-Loaded Ammunition**
Any person shooting reloaded/self-loaded ammunition must be aware that the Jury at any event is entitled to obtain samples of reloaded ammunition for testing.
11. Please assist the organisers by adhering to these rules and so facilitate the smooth running of this event.
12. Where a dispute occurs and the rules are not explicit enough to provide for a clear cut decision, the final decision rests with the individual discipline jury as elected for this event.
13. Dress code : the dress code as per clause 11.5 of the CTSASA Competition Regulations will apply. Eye and ear protection is mandatory. No open shoes or sandals. No camouflage, no shorts shorter than 15cm above the centre of the knee, no ripped or torn clothing - "Smart/Casual" is the standard.
14. **No cell phones to be used for any purpose whilst shooting a round of clays. No smoking or 'vaping' (e-cigarettes) on the shooting ranges.**

Thank you for your co-operation!

SIII LR Series

The SIII Series of Long Range Scopes are designed with the long range shooter in mind. The 30mm tube is complemented by fully multi-coated lenses with Sightron's Zact-7 Revcoat® coating process for the ultimate in clarity and performance. Available in target and tactical configurations, several reticles are available for all types of competitions. All scopes in the SIII Series of scopes feature Sightron's ExacTrack windage and elevation system for repeatable performance.

Mil-Dot

MOA-2

8-32X56LR Z5MD/CM

6-24X50LR Z5 MOA

Target Turret

Precision adjustable turrets offered in both 1/4 and 1/8 MOA adjustments. All models are resettable to zero and are protected by rugged windage and elevation caps.

Tactical Turret

Large oversized adjustable turrets offered in 1/4 MOA and 1 MRAD adjustments. All tactical models are resettable to zero and designed to resist extreme weather.

Side Focus

Parallax adjustment aimed at quick and easy adjustment and focus can be set from minimum focussing distance to infinity. Minimum focus distance varies depending on model.

MANDATORY SHOTGUN SAFETY RULES

- 1 Treat every gun as if it is loaded and with the utmost respect at all times.

- 2 When carrying a gun it should be open and empty at all times. Pump action and semi-automatic guns should be carried with bolts back, chambers and magazines empty, barrels pointing upward, breech forward

- 3 Avoid alcohol and horseplay when in possession of a gun.

- 4 When using a gun you should have on your person only those cartridges which are of the correct gauge and chamber length to match the gun.

- 5 All guns should be:-
(a) "nitro-proofed"
(b) "in proof"
(c) in safe and sound condition to shoot.

- 6 DO NOT point or fire your gun at anything other than a clay target (i.e. do not point or fire your gun at any other inanimate or animate object). Failure to observe this rule will lead to disqualification and expulsion from the ground.

BEHAVIOUR ON FIRING POINT

- 7 Before loading your gun with one or two cartridges, check that the barrels are free from obstruction and that they are pointing up the range.

- 8 Keep the muzzles pointing up the range at all times until you have opened and emptied your gun. Then (and only then) you may turn around and walk off the firing point.

- 9 **GUN MALFUNCTION** - Keep the muzzles pointing up the range until the malfunction is identified and corrected. (If upon firing the gun the cartridge makes an unusual report, then before reloading you should check the barrels are free from obstruction).

- 10 **REMEMBER YOU (AND ONLY YOU) ARE RESPONSIBLE FOR THE SAFE HANDLING OF YOUR GUN AT ALL TIMES. YOU ARE ALSO RESPONSIBLE FOR THE BEHAVIOUR AND SAFETY OF YOUR FAMILY, GUESTS AND ANIMALS WHEN THEY ARE ON THE SHOOTING GROUND.**

Acknowledgement to the CPSA, England

The above represents the main 10 shotgun safety rules. There are more safety rules in the individual discipline rule books. It is your responsibility to learn ALL of the safety rules.
